- ✓ Highly experienced in multicultural learning environments
- ✓ Strong digital literacy
- ✓ Strong ability to support mixed-ability learners and differentiated instruction
- ✓ A curated portfolio of teaching materials is available at: <https://teach.silviagalli.com>

Profile

Economist with a PhD from Durham University and over ten years of international teaching experience across European universities and business schools.

My teaching is structured, student-oriented, and focused on clarity and real-world application. I specialise in making complex economic and quantitative concepts accessible, supporting students in developing analytical thinking, data literacy, and problem-solving skills.

I also have a strong interest in health economics, particularly in relation to productivity, labour markets, and public policy, and I am motivated to contribute to interdisciplinary teaching environments, including programmes connected to the health sector.

Teaching Areas

- Macroeconomics
- International Economics
- Applied Economics
- Quantitative Methods & Data Analysis
- Political Economy
- Health Economics (productivity, labour markets, public policy)

Teaching Experience

University of St. Gallen (Switzerland)

Teaching & Student Support | 2013 – Present

- Delivered teaching in macroeconomics and international economics in English
- Designed structured lessons focused on clarity, engagement, and accessibility
- Supported students in developing analytical and quantitative reasoning
- Supervised Bachelor's and Master's theses
- Provided continuous feedback to support student progress

Université catholique de Louvain – CORE (Belgium)

Postdoctoral Teaching & Research | 2014 – 2015

- Supported teaching in quantitative and economic subjects
- Assisted students in understanding complex analytical concepts
- Contributed to course materials and structured learning activities

Hull University Business School (UK / Hong Kong / Singapore)

- Assistant Professor in Economics | 2010 – 2014
- Designed and delivered undergraduate and MBA courses
- Taught Macroeconomics, International Economics, and Econometrics
- Integrated real-world data and applied examples into teaching
- Assessed student performance and supported academic development
- Taught in multicultural and international environments
